[FP]-LIMS - GLAS

PROVEN - FLEXIBLE - COST-EFFECTIVE

- Professional management of laboratory data in glass analytics
- Flexible adaptable at any time
- Numerous standard interfaces integrated as standard

WHAT IS [FP]-LIMS?

[FP]-LIMS is a highly practical software solution for the collection, preparation, management and evaluation of all data generated in the laboratory. At the same time, our LIMS software impresses with its enormous flexibility and adaptability. [FP]-LIMS is able to adapt to your work processes and grow with your company through expansion options.

All data of your work processes are collected centrally in a database and can be retrieved, transparently managed and visualized decentrally. Only authorized employees can access confidential data. Through our audit trail, you can trace every process to which our software is linked through its numerous standard interfaces. We are also happy to develop individual interfaces for you. Discuss your further requirements in a personal meeting with us.

ADVANTAGES OF [FP]-LIMS FOR COMPANIES IN THE GLAS INDUSTRY:

[FP]-LIMS is a laboratory software solution that has been tried and tested over decades and is used in quite a few companies in the glas industry worldwide. Its enormous adaptability, flexibility and unbeatable price-performance ratio are convincing arguments.

- WORLDWIDE PROVEN LIMS FOR GLAS MANUFACTORERS
- FOR ALL MEASURING DEVICES
- ADAPTABLE & FLEXIBLE
- PRICE-PERFORMANCE RATIO
- COST-EFFECTIVE & EFFECTIVE
- VIABLE LIMS SOLUTION
